~~THE ATLANTIC CONNECTION~~

an

Emerging Global Mystery

Who were Humanity's most-ancient ancestors?  
Why did they cover this <sup>entire</sup> planet with <sup>hundreds</sup> stone carvings?

*CONF. AR6054*

In June, 1978, ~~Argosy~~ carried a pioneering article by ~~the~~  
~~following~~ author which related his finding a strange carved  
stone that required special light conditions to reveal the more  
than 50 images of animal and human heads carved upon its' surface.  
~~(The following)~~ His search to discover the meaning of this magical  
stone led to his 14 year apprenticeship to the Latgawa Takelma,  
a mysterious near-extinct tribe of Southern Oregon Indian Shamans.  
In the above article, he related being taken to a secret Shamans  
cave filled with identically imaged stone-carvings and being placed  
before cliffs that needed special lighting to reveal the images  
carved into their surfaces.

In 1981, 3 years after ~~the pioneering~~ Argosy article appeared,  
the scientific world reported themselves as, "being astounded,"  
by the find of a 14,000 year old multi-imaged stone carvings  
requiring special-light conditions which ~~was~~ discovered in a  
secret Shamans cave at El Juyo near Santander Spain. This  
important dating find established Shamanism as the oldest on going  
religion. Because of this fact, it was heavily commented upon in  
leading science/news periodicals such as: Science; Science News;  
Time; Newsweek; Travel; San Francisco Chronicle and the 1981 August  
issue of the Journal of History of Religion.

Dr. Leslie Freeman (Univ. Chicago, Anthro.) one of the discoverers  
at the El Juyo site, reported, "It is the oldest, intact, dedicated  
religious site, we can prove in the world."

*Positivian Dugot*

Then report your archeological findings back to the editors who  
will publish the reader's findings and <sup>the author's</sup> ~~sug-sha-ch's~~ <sup>shamanic</sup> explanation  
of this emerging primo-historic mystery. <sup>global-</sup> ~~he says~~ to remember this  
fact: Every major known religion is, on ~~the~~ based on a stone which  
was, ~~on~~ is basically heart/triangle shaped.
